# INTRODUCTION

The essence of Grand Tex has been cruising its eminent journey with a commitment to build a vendor friendly service in the readymade garment sector by providing a service which can be known by its excellence. Grand Tex presently navigating in the market of USA, UK, Germany, France, Poland, Canada, Denmark, Brazil, Hungary, Australia, India and many more. Our business philosophy revolves around persistent endeavours in improvement of our existing service, constant quest for quality excellence and a confident pursuit in diversification. We firmly believe that our growth depends on the growth of our customers. Thus, we take extra care in understanding our customers, their needs and keep constant track of changes in the global garment sphere. We aspire to become the foremost buying house in the country by constantly enhancing quality in our services.

# OUR ACTIVITIES

## SOURCING:

Accomplished sourcing teams are constantly on the look out for new products. These teams, comprising of young talented, experienced professionals are sourcing specialized factories with vertical set up for woven, knit & sweater items. Raw materials for production are also sourced locally and internationally from countries such as China, Hong Kong, Taiwan and India. It is made sure that raw materials for production are sourced from Oekotex certified factories ensuring that no harmful chemicals are present in our products.

## DEVELOPMENT:

In-house development teams are precisely focused on new product developments using local and imported materials. The development teams, keep themselves relentlessly updated with new and current fashion trends. Besides this we are also developing samples and products as per customer's requirement and specification.

## MERCHANDISING:

Each customer is assigned with an individual and separate merchandising team for follow up of orders. This team comes into action from the day of order placement till the date of shipment. Each team, headed and monitored by a Manager-- routinely and systematically update the customer on the progress and status of the order. Daily communication and exchange of information is maintained with the customer. Due to different requirement of product range of each customer the merchandising department is further divided into respective department.

# OUR ACTIVITIES

## QUALITY CONTROL:

Alike the merchandising team, each customer is also provided with selected and separate production team (quality controllers). These teams, along with the merchandising team performs quality check on the merchandise during production. Workmanship and other standards such as rubbing test, shrinkage test, colour fastness etc. are constantly checked, recorded and analyzed. Immediate corrective measures are taken if any deviations are found. Internationally certified tests such as SGS, BV can also be provided depending on customer's requirement. Due to such strict and rigorous quality checks our products can be offered for any third party inspection.

## SOCIAL COMPLIANCES:

Grand Tex gives special emphasis on social compliance as such most of our factories are BSCI, WRAP, SEDEX, etc approved. To maintain this compliance we have our own compliance and audit team who makes random checks on factories regarding all social compliance and audit.

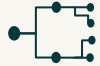

## LOGISTICS:

In order to handle all kinds of shipments to our valued customers, we have our in-house logistics department. They negotiate the fastest and safest voyage time for all shipments. The customer is regularly updated with all relevant and info regarding shipments.

# CUSTOMER SUPPORT

## FACTORIES & PRODUCTION CAPABILITIES:

We have manufacturing support from approximately 8 industries based in Bangladesh. Which are all state-of-the-Art manufacturing units that manage our huge production demand. At present we are successfully exporting variety of **woven, knit and sweater items for men's, lady's and children's fashion**. We deal in all sorts of **cotton, elastan, polyester, polyamide, acrylic, viscose, modal yarn and fabric**.

## INSPECTION:

In-line and final inspection of our products are carried out by our own technical team as per international standards. We can also provide 3rd party inspection such as Bureau Veritas, SGS as per customers' requirements
